EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Marcus R. Mickney on May 2, 2005.

The application has been amended as follows:

Due to the duplication of Claims 24, in the second claim 24, the claim number "24." has been changed to -25.--.

REASONS FOR ALLOWANCE

2. Claims 1, 3 – 24 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest, in combination with the claimed elements of Claim 1, a resistance assembly with a bearing assembly capable of being moved radially relative to an axis of rotation to move a pin laterally to allow a roller to avoid a base to open or close the switch assembly. In Claim 10, the combination of limitations including "a lever connected to said at least switch assembly, a shaft connecting each of the levers, pin connected to one of the levers and resistance member connected to second end of the pin, the resistance member contacting the base" define the claim over the art of record and for Claim 21 the combination of limitations together with "a resistance member connected to said second end of said pin, said resistance member contacting a

first leg of said base when said lever rotates to move said switch assembly between open or closed positions, thereby preventing accidental movement of said switch assembly." define the claim over the art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
